

Mayflower Primary School

Social Sciences Intent Statement 2021-2022

Abstract

At a meeting of the Curriculum Management Team on 02.12.20, faculty members developed their own **intent** statement that was linked to the generic statement prepared beforehand. The following will articulate the intended outcomes of all management processes, and will be tested through **implementation**, and **impact** over time. Each intent statement will be subject to an annual review, and published online, as required.

Social Sciences

Today's children are growing up in an increasingly complex world, both on and offline. This provides our children with many positive and exciting opportunities but also challenges and risks. The curriculum at Mayflower supports the children to become digitally literate, aware and safe. Through our creative curriculum we aim to teach cultural respect, equality and empathy. It places an emphasis on the children developing a good understanding of mental health and strategies to support this such as mindfulness and emotional literacy. The curriculum supports the children to manage their academic, personal and social lives in a positive and balanced way.
